MEEHANS' NURSERIES

75 ACRES

WHOLESALE TRADE LIST

THOMAS MEEHAN & SONS

GERMANTOWN, PHILADELPHIA, PA.

ESTABLISHED 1852

NOTICE TO CUSTOMERS

In ordering stock sent by mail, add ten cents on every dollar for Deciduous Trees, and fifteen cents for Evergreens, to prepay postage. For Seeds, ten cents per pound.

Parties are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgement; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistake.

TERMS, in all cases, cash, on or before delivery to express or railroad agents, unless by special arrangement.

Five hundred, fifty, and five, will be furnished at the thousand, hundred, and ten rates respectively. **Packing Charged Extra.**

Post Office Orders payable at Station G, Philadelphia.

Our Retail Catalogue is complete and will be sent to all applicants.

Visitors are always welcome, and should take train at 12th and Market Sts., Philadelphia, for Chestnut Hill, getting off at WALNUT LANE STATION;—or at Broad and Filbert Streets, getting out at CARPENTER ST. STATION. Trains run every half hour, both ways. Cabs at both stations. The Eighth Street Electric cars come to within two squares of our Nurseries. Leave cars at CHURCH ST., GERMANTOWN.

Tree Seedlings for Nurserymen

We have the largest stock of these in the United States, all of our own grown, and very much superior in every respect to foreign grown stock.

OF

Norway, Sycamore, Sugar and Red Maple Seedlings

we have an especially fine lot.

Also of **RED-BUD or JUDAS,**
WHITE DOGWOOD,
RED-FLOWERED DOGWOOD
WEEPING DOGWOOD,
BEECH, ASH,
BLACK WALNUT, TULIP TREE,
MAGNOLIA, MULBERRY,
PLANE or EUROPEAN SYCAMORE,
POPLAR, OAKS IN VARIETY,
MAIDEN HAIR or GINGKO,
LINDEN and ELMS.

Of nearly all of the above we have **large transplanted stock** also, in the very best of health and condition.

Our stock of

SHRUBS AND EVERGREENS

is very large and in the most healthy and thrifty condition.

NORWAY SPRUCE.

Of these we have a large stock of fine, shapely plants at low prices.

RAFFIA.

We are large importers of **Raffia** and can always supply it in quantities. Prices (variable) on application.

Deciduous Trees.

The letters (tr.) signify that the stock has been once or more transplanted, (S) that it is still in seedling beds.

ACER POLYMORPHUM ATROPURPUREUM.

Japan Blood-Leaved Maple.

We invite the attention of our customers to the very low prices at which we are offering these plants this year. We claim that they are superior to all others as we grow them *on their own roots*. They grow better and hold a better color than grafted plants, and the vitality is greater. We now make them one of our specialties, and grow a large supply yearly.

The color of the foliage is a rich crimson, and the plant frequently makes a second growth in the fall, the color of which is darker than at midsummer.

Prices, below.

		Per 10	Per 100	Per 1000

CORNUS FLORIDA PENDULA.
(Weeping Dogwood)

WEEPING DOGWOOD.

(Cornus Florida Pendula.)

Of all the weeping trees, there is none, to our mind, equal in beauty to this one. It is very hardy, and will thrive from Canada to Florida. As will be seen by the picture of a large specimen on our grounds, the branches are very pendulous, but the leader shoots up as straight as an arrow.

It bears a great profusion of large white flowers in spring, followed by bright red berries in fall, just the same as the White Flowered sort.

After growing it for upwards of ten years we can recommend it as *one of the finest ornamental weeping trees grown.*

WHITE FLOWERED DOGWOOD.

(Cornus Florida.)

We believe that our stock of this beautiful ornamental tree is larger than can be found in any other establishment in the world. We have no less than 40,000 seedlings alone. It is one of our specialties. It always sells well, as it is a plant that we can recommend, its beauty at all seasons pleasing every one. For prices see page 7.

		Per 10	Per 100	Per 1000

CORNUS FLORIDA FLORE RUBRO.

Red Flowered Dogwood.

Ever since we commenced pushing this most beautiful variety of Dogwood, its sale has been unprecedented, and our stock has always run short long before the selling season ended, though we were growing it by the thousands. The demand grew so rapidly that we resolved to say nothing commendatory of it in our wholesale catalogue last fall or the following spring; notwithstanding this our stock was completely sold out. We think that we can truly say that no other tree or shrub took the popular fancy quicker than did this. The flowers are not red, but a beautiful deep pink. Last spring we sent a number of flowers to our retail customers, three-fourth of the flowers so sent bringing orders to us, not for one plant, but in many cases from three to six for one customer. For cemetery planting, there is no finer class of trees than the Cornus florida and its two beautiful varieties, C. f. rubro and C. f. pendula.

For prices see above.

" " " "	3 to 4 ft. tr.	7 50		

We have an exceptionally fine stock of the following Beeches:

AMERICAN BEECH, EUROPEAN BEECH, RIVERS' PURPLE-LEAVED BEECH, FERN LEAVED BEECH, WEEPING BEECH.

Our Rivers' Purple Beech are all grafted, and are thrifty stock. The Weeping have had the leaders trained to a stake so that they have a good straight central shoot, unlike most Weeping Beech sold. We call particular attention to the American Beech as being particularly adapted for hedging purposes, where a good hardy ornamental hedge is required. It has been well known for a number of years that the European Beech makes a beautiful hedge, but only lately that the American was equally as fine.

OAKS.

Oaks are our specialty, and we have the largest quantity of them of any nursery in the country.

At one time they had the reputation of being of slow growth. While this may be true of them in Europe it is not so here. In our nursery they grow just as fast as any other ordinary tree. Our sales of them increase every year. The White, Scarlet, Mossy Cup, Pin, Red and Black, are particularly fine sorts.

Quercus palustris—(Piu Oak.) 10 years' growth; 20 feet high.

JAPAN SNOWBALL — Viburnum plicatum.

This electrotype given to purchasers of plants on application.

When we first commenced growing this plant, our sales of it were but a hundred or two a year; but it is now so popular that though we are growing it by the thousands, we have scarcely enough to supply all orders. Some idea may be had of the great quantities we are now growing, when we say that we could supply fifty thousand plants of various sizes at this writing. Every nurseryman and dealer should handle it.

Our Retail Catalogue of Trees, Shrubs, etc., will be sent free to all applicants.

Geranium sanguineum.

Hardy.... Perennials

These plants have sprung into great prominence during the past few years, so that now no landscape work is deemed completed unless it embraces a number of these beautiful plants. - - By careful selection of varieties, it is possible to have plants in bloom from early Spring to late Fall. - - They require but little attention, and each succeeding year adds to the beauty of the plant, and stronger comes larger with age. - - Our collection embraces all the desirable varieties usually offered for sale, as well as a great number not to be found in other nurseries. - - - - - - - -

Lychnis chalcedonica.

For use in Parks and Cemeteries these plants are unexcelled; many spots now bare and without beauty can be made quite attractive. - Descriptive Catalogue on application. - - - - - - -

Tradescantia Virginica.

RED FLOWERED DOGWOOD

CORNUS FLORIDA FLORE RUBRO

Much has been written of the beauty of the **Red-Flowered Dogwood,** but we feel sure that nothing we could say would impress you as much as the lithograph which is herewith presented for your inspection. We have a specimen plant, 7 feet high, that had no less than 500 flowers on it when it bloomed last May. It stands in a border with other trees and was so conspicuous that it immediately attracted the eyes of all visitors. Planted as a single specimen on a lawn it is beautiful, but grouped with the white-flowered variety, the attractiveness of both sorts is greatly enhanced.

☞**IF YOU WANT TO PUSH THE SALE OF THE DOGWOODS** this Spring, you should have a thousand of these circulars which we would furnish to you for $1.50 per 1000, and also print your name, business and address on them, if you agree to buy your plants of us. The Red flowered sells at retail for $1.00 each, or $9.00 per ten, for 2½ to 3 ft. plants. The White flowered, 3 to 4 ft., at 75 cents each, or $6.50 per ten. If you order 35 plants we give you the plates free.

JAPAN SNOWBALL

(Viburnum plicatum)

A new variety of Snowball from Japan. Growth upright and compact. Foliage olive green through the summer, but toward fall it turns much darker and remains on the plant for some time after the first frosts. Flowers, though hardly as large as the old variety, are much more numerous. The leaves are in pairs along the stem, and from the base of each leaf a ball of flowers appears. There are often as many as ten pairs of these, or twenty balls, on a branch eighteen inches long. These balls, as they expand, all face upward, so that a full view of their great beauty is always to be had. To be a universal favorite a shrub must be hardy, easily transplanted and its growth of good shape, and beautiful both in leaf and flower, and the Japan Snowball embraces all of these points to the fullest extent. See page 23.

☞ We furnish the above electrotype to customers for 50 cents, postpaid. ☜
